

Certificate II in Conservation and Ecosystem Management

If you have a passion for caring and preserving our environment, then this hands-on course is for you. Learn practical skills in native seed collection and propagation, bushland restoration, native plant and wildlife identification, pest plant control, fencing and maintaining structures, using maps and much more. Pathways may include employment into roles such as assistant land management officer, assistant conservation worker, assistant parks and wildlife officer. Some great skills to last a lifetime.
